

POSTER CONTEST  
by: Ray Beilke, District Supervisor

The Douglas Soil and Water Conservation District in cooperation with the Minnesota Association of Soil and Water Conservation District sponsored its annual poster contest for all 6th graders. The purpose is to help young people consider the importance of soil and water conservation to plants, to animals, to people and to our whole environment. We extend our appreciation to the teachers who took the time to make this contest a part of their curriculum.

OUTSTANDING FARMER

by: Julian Loken, District Supervisor

The 1975 "Conservation Farmer" in Douglas County was Mr. and Mrs. Harlon Froemming of Garfield. Mr. Froemming operates a 540 acre farm, became a cooperator in 1964 and has many conservation practices on his farm. He was honored at our State Convention in Marshall where he met winning farmers from the other counties in Minnesota.
